

## **Driver's Education Training**

Driver's Education is offered to Maine students through a local driving school. Students are transported by MapleStone to attend classes and driving opportunities. MapleStone assists NH students to enroll in a NH driving school and provides support throughout the course and driver's test.

## **Co-Op**

MapleStone students in good standing may be eligible to participate in our Co-Op program. MapleStone works with businesses to provide part time job opportunities that increase a student's awareness of the responsibilities needed to be successful in the working world.

## **Stipends**

MapleStone has a financial incentive program which directly correlates to the student's daily academic, behavioral and vocational performance.
